

## Smart Mobile™: Wireless Without Limits

**Dan Simone**  
Chief Technical Officer, Founder  
[dan@trapezenetworks.com](mailto:dan@trapezenetworks.com)

# Approaches to WLAN Architectures

## Fat AP Architecture

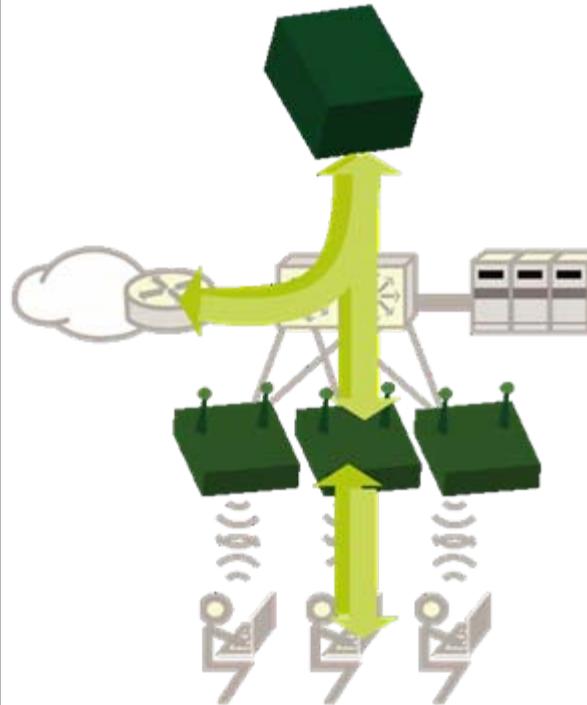

High Op Ex, Unmanageable

- Control
- Management
- Traffic

## Centralized Architecture

One Size Fits All

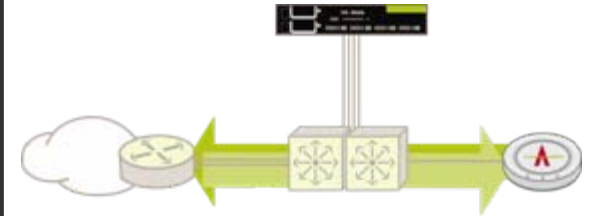

- Control
- Management
- Traffic

## Smart Mobile

Intelligent Switching

Distributed Forwarding for Latency-sensitive Applications

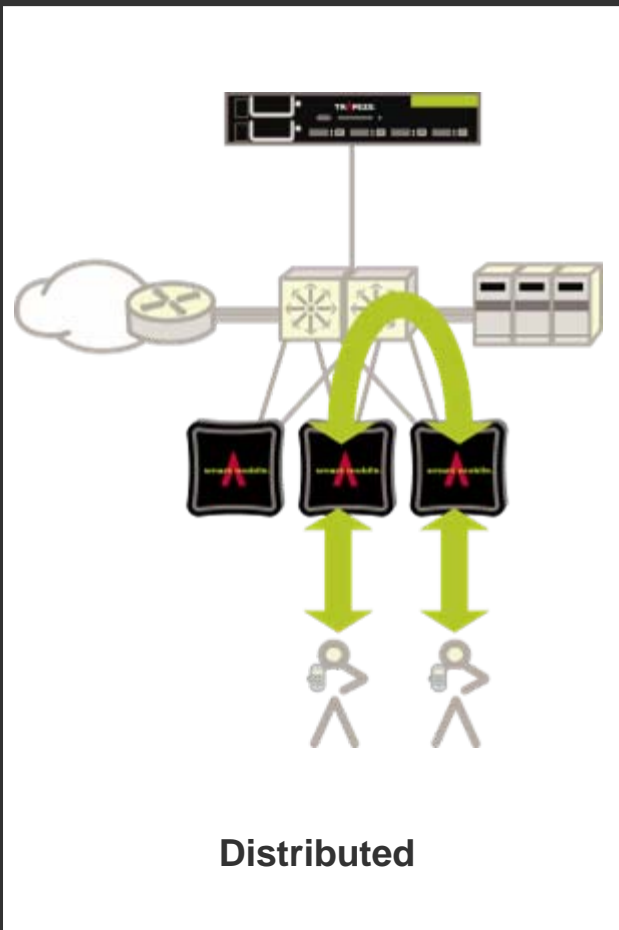

Centralized Forwarding for Other Applications (e.g. security-sensitive)

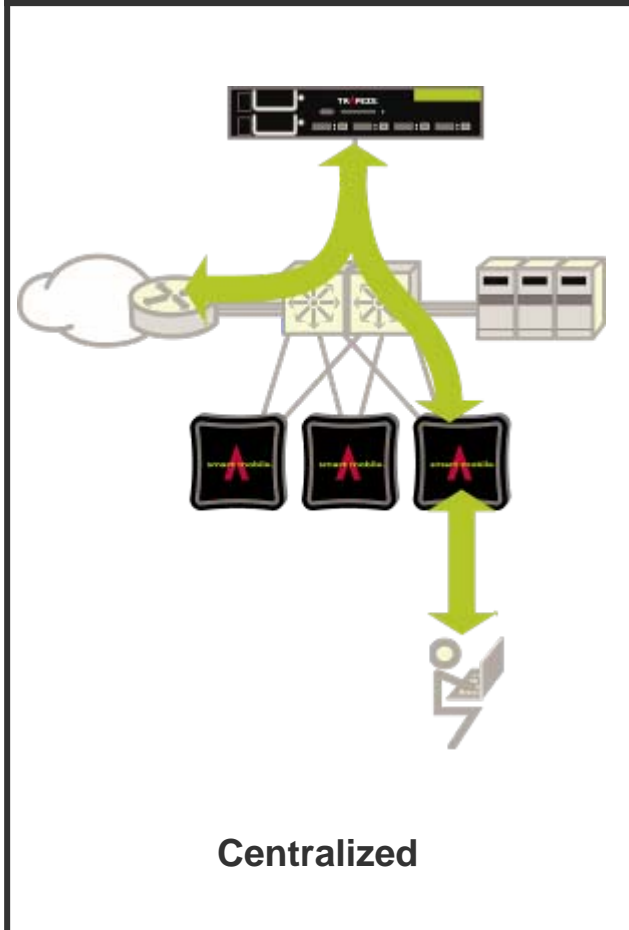

- Control
- Management
- Traffic

# Smart Mobile Application-Driven Switching

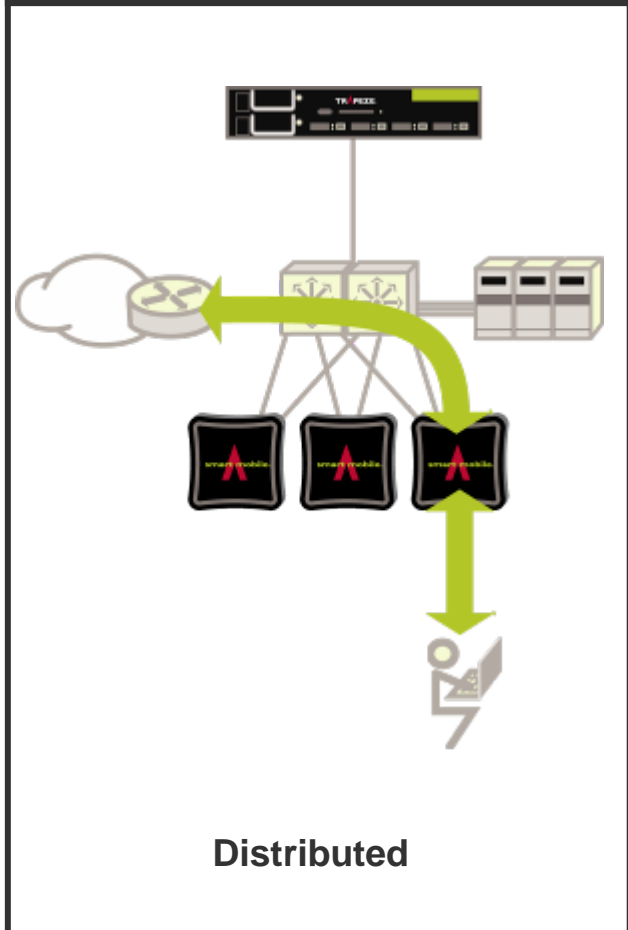

## Voice over Wireless Latency Sensitive Applications

## Guest Access Security Sensitive Mobility Applications

## .11n Ready Today Tomorrow's Applications
