

The Application Management Challenge

Peter Anger
EMC Resource Management Group

The Application Management Challenge

Closing the Management Gap

- Built-in Topology Based Analysis
 - Rapid deployment
 - Automatically adaptation to change
 - No time to write correlation rules
- Self Learning
 - Automate discovery
 - Learn application behavior
 - Every application is different
 - No time to tune and maintain everything manually
- Analyze and correlate across layers
- Leverage virtualization to rapidly restore service

The Application Management Challenge

Why EMC?
