

BITSTREAM™

# THUNDERHAWK FEATURE SET

## DESKTOP STYLE BROWSING

UNCOMPROMISED MOBILE BROWSING

## ❖ ThunderHawk enables full-featured desktop-style browsing on all levels of mobile devices

- ❖ HTML pages are displayed exactly as they would appear on the desktop
- ❖ Content is never reformatted, repurposed, or removed
- ❖ Content columns are adapted to the actual screen width of both high and low-end devices for easy, fluid reading
- ❖ Bitstream's proprietary wireless font set optimizes text display for small screens
- ❖ Visible web page region is rendered immediately so users can begin reading information instantly

BITSTREAM

❖ ThunderHawk is a desktop level HTML browser with full support for common standards including

- HTML 4.01
- JavaScript
- AJAX
- XML 1.0
- HTTPS
- RSS

- ◆ Default start page integrates favorites, history, search, feeds and URL entry into one convenient screen

## Smart Bar Predictive URL Entry

- ◆ Suggests URLs based on history and favorites
- ◆ Auto-completes URL entry

## Zoom-Out mode

- Divides the screen into two sections
- ◆ Top section displays minimap of full Web page
- ◆ Bottom section continuously displays the magnified content

# MAGNIFICATION

UNCOMPROMISED MOBILE BROWSING

- Allows users to choose between 5 levels of magnification
- Smoothly scales text and images
